## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 1-22, 33-53, 55-64, and 69-84 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicants disclose a method for providing assistance to a non-native speaking in preparing written text in a native language, comprising the steps of enabling a user to enter non-native words of a non-native language and a phonetic text string of a native language, displaying the non-native words and the phonetic text string within a common entry line, translating the phonetic text string to at least one native word of the native language, determining possible non-native word candidates from the native word of the native language, generating first probabilities associated with the non-native word candidates that indicate how likely individual non-native word candidates were intended by the user given the context established by previously entered non-native words, generating second probabilities associated with the non-native word candidates that indicate how likely the native word was intended given individual non-native word candidates, deriving a most probable non-native word from among the non-native word candidates based on the first and second probabilities and translating the native word to the most probable non-native word. The cited prior art does not fairly teach or disclose the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
